CAREER GOALS: FRONT END ENGINEER × WEB DEVELOPER

Analytical, detail-oriented Full-Stack Developer & Programmer with comprehensive knowledge and experience in building frontend applications. Proficient in developing system codes, data structure, and algorithms to complete the assigned projects by the deadline. Demonstrate excellent communication skills to clearly and effectively interact with diverse populations in written, verbal, and presentation formats. Committed to enhancing technical business operations and creating a high level of customer service while multi-tasking on increasing revenue and resolving issues. Equipped with an excellent work ethic, passion for succeeding, and a strong sense of integrity – achieving exceptional outcomes while handling tasks with efficiency.

CORE COMPETENCIES

Coding: Front-End Development • Software & React Development • Asynchronous Programming • Es6 • APIs • SaaS • HTML/CSS Best Practices • Systems Engineering • User Experience (UX) • User Interface (UI)

Data Management: Business Intelligence Analysis - Cloud (Splunk) - Relational Database (Postgres) - Data Analysis & Processing

Testing: UI/UX Design • UI/UX Design Principles • Quality Assurance • Troubleshooting • Web Applications Testing • Application Debugging • Automation Testing • API Testing • Analytics-Based Writing • QA & Cross-Browser Compatibility Testing

Leadership: Product Development • Problem-Solving • Reliability • Communication Skills • Customer Service

Others: Software Documentation Maintenance • Research & Technical Documentation • Product & Graphic Design

TECHNICAL PROFICIENCY

FRONTEND: REACT
CSS/SCSS
JAVASCRIPT
REDUX
JSON
HTML
JQUERY
BOOTSTRAP
AJAX
MATERIAL-UI
RESPONSIVE DESIGN

BACKEND: NODE
EXPRESS
POSTGRESQL
SQLITE
PYTHON
RESTFUL API
POSTMAN
INSOMNIA

OTHER: HEROKU
LESS/SASS
AGILE
JEST
NPM/YARN
VERSION CONTROL / GIT
FIGMA
ADOBE SUITE (PHOTOSHOP,

ILLUSTRATOR)
FLUID
SKETCH
MICROSOFT OFFICE SUITE (WORD, EXCEL, POWERPOINT)

OS: WINDOWS, LINUX, IOS

PROFESSIONAL DEVELOPMENT & TRAINING

FULL-STACK WEB DEVELOPMENT

Lambda School, 2020 − 2021

A 14-months long intensive program focused on gaining technical programming skills in front and backend web development, including building data structures and algorithms with Python.

Key Modules: Web Foundations – HTML, CSS, Git, JavaScript, and UI Principles | Web Application Development – React, Redux, React Router, HTTP/Ajax, and Functional Programming Techniques | Advanced Web Development – Advanced React, State Management & Web Applications | Back End Development – Node - Node.js Web APIs, Data Persistence, Authentication & Testing | Computer Science – Intro to Python & OOP, Algorithms, Data Structures, Graphs, Hash Tables, and Coding Interview Tips

PROJECTS

Movie APP - GITHUB.COM/DWAINEJADE/MOVIE-HUB

Tools used: JavaScript, React, Material-UI, Pagination, CSS

A mobile-first application that pulls data from a movie database. Designed a sleek and fully responsive website with the ability to filter over 600,00 movies and TV series by genre or search for media by name.

WATER MY PLANTS API - GITHUB.COM/DWAINEJADE/WATER-MY-PLANTS-BACKEND

Tools used: Node.JS, Express, RESTful API, SQL, JavaScript, Postgres, Heroku

Single page application to remind the user when to water their plants. Built a backend server using Node and SQLite to store user and plant data. Used bcrypt.js to hash passwords for added security. Collaborated with the frontend team to ensure all calls and responses functioned correctly. Added ability for users to store pictures of each plant.

SECRET FAMILY RECIPE — GITHUB.COM/DWAINEJADE/SECRET-FAMILY-RECIPES-FRONTEND

Tools used: React, HTML5, CSS3, Axios, JavaScript, Bootstrap

Responsive website for storing and editing recipes. Developed a website that allows users to add, edit and delete recipes from the database. Used react-axios to make requests to the server.

PROFESSIONAL EXPERIENCE

OFFICE ASSISTANT ✓ Creedmoor Psychiatric Center; Queens, NY

09/2019 - Present

- ✓ Input daily time and attendance for most healthcare staff of over 200 people as one of the three timekeepers.
- Sort and file documents and correspondence to maintain accurate and accessible records of overall operations.
- Create a spreadsheet for tracking COVID-19 contact, expediting and streamlining the processes for contact tracing.
- Ensure efficient technical support in handling software troubleshooting to provide optimal customer service.
- ✓ Institute a strategic direction for regulation and efficient daily operations, optimizing the company's performance.

01/2019 - 09/2019

- ✓ Worked in terminal 4, one of the busiest terminals globally, which has 30 airlines, and most passes look different.
- Checked hundreds of boarding passes and passports daily while directing the passengers to the right terminal and line.
- Assisted on passenger inquiries and diffused complaints proficiently and courteously, providing exceptional service.
